We Will Not Be Silent: A Collection of Links Regarding Sexism, Sexual Harassment, and Sexual Assault in Science Fiction Fandom and Publishing

Trigger Warning: This document and the linked content includes references to child sexual abuse, child sexual assault, child rape, rape, sexual harassment, sexual assault, sexism, rape culture, and misogyny.

Mission Statement

The purpose of *We Will Not Be Silent* is to share information about many of the problematic, disturbing, and dangerous parts of science fiction literary fandom and publishing. This includes, but is not limited to, those related to alleged incidents of sexism, sexual harassment, and sexual assault.

This document is a collection of links to dozens of articles, posts, tweets, and comments about people--including authors, fans, and publisher employees--who have been described as having engaged in harmful and predatory behaviors, mostly against women. Some of the links are to posts by people whose words--unfortunately--speak for themselves. Other posts provide coverage, commentary, and/or challenge problematic viewpoints and behaviors frequently encountered in SF literary fandom.

We Will Not Be Silent is intended as a tool to help avoid erasure by chronicling one of science fiction's hidden histories. It's intended as an agent of change, joining the many other efforts currently in progress. Together, we can shatter the conspiracy of silence and foster a safer, healthier science fiction community.

Heather Massey, September 2014
